1963 Sugar Double Crop During 1961

Federal action Wednesday gave Florida sugar producers — most of them concentrated in Palm Beach County — the go ahead for a 1963 crop which will more than double the 1961 harvest.

A U. S. Department of Agriculture order, in effect:

Set Florida's sugar acreage at 139,000 acres, with about 120,000 of that figure in Palm Beach County. Roughly 60,000 acres were harvested last season.

Opened the way for a continuing 75 million dollar a year state sugar industry.

Assured payrolls estimated at 40 million dollars a year.

"This is what we asked," reported a pleased Harry Vaughn, president of U. S. Sugar Corp., giant of Florida producers.

Vaughn, who said he had not received official notification of the action yet but had been informed by phone, predicted it would "stabilize the farming industry in the Glades."

He predicted sugar would give jobs to 15,000 people in four counties half of that number on a year-around basis. The other half will work during a four to six-month harvest season, long by most harvest standards.

Acreages for various producers will be allocated on the basis of the acreage they had planted as of April 15 this year, Vaughn said.

VISIT THEIR SON

Mayor and Mrs. Duncan Padgett left Wednesday to visit their son and daughter-in-law, Rev. and Mrs. Donald Padgett and family in Chattahoochee. They were accompanied by Donna Joy and Duncan, the children of Rev. Padgett, who had been their house guests.

Precinct 109, South Bay, 44 for; 110 against.

Addition No. 2 to Townsite of Canal Point Is Now Under Construction and Homes Are Going Up in Addition No. 1.—New Development Calls for Several King Size Lots for Executive Personnel of U.S.S.C. Who Will Direct Operations of New \$17,000,000 Sugar Mill Here. . . Plans Call for Erection of Homes Immediately Following Construction of Streets and Drainage in New Section of Canal Point. New Homes Will Bring Need for More Facilities At Community Building and Park, So, U.S.S.C. Has Donated Additional Land to County To Take Care of This Need.

Construction of one of the finest sub-divisions in the Everglades is under way in Canal Point by the United States Sugar Corporation and when completed there will be 35 exceptionally attractive lots available for homes with some of those lots being king size. The subdivision is known as Addition No. 2 to the Townsite of Canal Point and is located immediately east of the present Townsite.

Addition No. 1 to the Townsite was put on the market a few years ago by the U. S. Sugar Corp., and today builders are busy erecting new homes in that portion of Canal Point. Under construction and completed in Addition No. 1 are eight modern homes with more on the planning board. The new subdivision is immediately north of No. 1 across Third Street.

Addition No. 2 homes will be occupied by employees of the sugar concern and these folks will be key personnel who will be in charge of operations at the new \$17,000,000 sugar mill being erected. Construction of homes will be started just as soon as the contractor completes the streets and drainage.

Construction of the streets and drainage has been contracted by the sugar company to Rubin Construction Company of West Palm Beach, many years a leader among construction companies. The subdivision will be built to Palm Beach County specifications — which are rather rigid — and under the law streets will be maintained by the county after they are accepted upon completion under county inspection.

The new layout will contain lots for 35 new homes, and sugar company officials feeling that 35 new homes would bring several children to the community, thought that provisions should be made for additional playground at the Community Building and County Park. And, they made the necessary provisions for more sugar company land to be deeded to the County for this particular need. The deed

was handed to the County Commission's attorney this week.

The company in providing the necessary land to enlarge the park area, deeded to the County that area immediately east of the present park and running eastward to a new street extension of Everglades Avenue to be extended from the present Townsite northward between the residences of Earl Maxson and the Methodist Pastor, Robert Shelley. The boundary on the far eastern side next to the cane field will be Bryant Avenue, a new street. Cross streets will be Fourth Street and Fifth Street.

In commenting upon the handsome gift of additional park land by the sugar company to the County, many local citizens remembered that back in 1950 the original land for the present Community Building came as gift from that concern.

Literally hundreds of people are going to be needed to operate the new mill and provisions have been made for practically none. The new homes to go up in Canal Point mark the start of the "sugar boom" in this immediate area. More homes must come and come fast if the workers are to "have a roof over their head" come harvest time.

IN FLORIDA, citizens were evading the blockade of the Union Navy, by using small boats to bring in essential weapons and supplies for the Confederate armies. After each successful blockade run, many men celebrated with well-earned glasses of beer.

For then, as now, beer was the traditional beverage of moderation. But beer means more than enjoyment in our state. The Brewing Industry contributes more than 25 million tax dollars to Florida each year — money that helps support our hospitals, schools, and highways.

TODAY, in its centennial year, the United States Brewers Association still works constantly to assure maintenance of high standards of quality and propriety wherever beer and ale are served.

"Today we need a nation of Minute Men . . . citizens who regard the preservation of freedom as a basic purpose of their daily life"

—JOHN FITZGERALD KENNEDY

10 days after his inauguration
as the 35th President of the
United States.

Twenty years ago, in the dark, uneasy days before Pearl Harbor, the Minute Man of Concord, timeless symbol of our Nation's determination to defend its freedom, emerged as the emblem of the U. S. Savings Bonds Program. When war came, the Minute Man became the rallying force behind the huge and overwhelmingly successful effort to back our fighting men with War Bonds.

In this, the 20th anniversary year of Savings Bonds, the Minute Man of Concord calls all Americans to an unremitting effort to help preserve our peace and freedom, threatened by forces more powerful and resourceful than those we faced in 1941. Though this effort will take many forms, one way open to all is the continued investment in Shares in America, U. S. Savings Bonds, by "citizens who regard the preservation of freedom as a basic purpose of their daily life."

LISA Is New Name For Mullet Fish

ST. PETERSBURG—Within the next few months Florida mullet will be replaced by Lisa. The mullet's extinction will be in name only, however, as Lisa will merely be the new name of the same old fish.

It is all the plan by state fisheries experts to make the mullet market a money-making venture. Robert N. Ingle, director of research of the Florida State Board of Conservation, is behind the idea. Mullet, says Ingle, will compete any day with salmon and tuna as a food fish. But a great many northern fish of the sucker family are called mullet, and they are inferior fish.

"We picked Lisa, the Spanish name for the fish, because it is more attractive than mullet," Ingle explained.

Some 5,000 cans of Lisa are now being canned and will be tested as to its market value in the near future.

Sept. 30 To Be SOS Day On Polio Sip

Sabin Oral Sunday is to be held in Palm Beach County on September 30th. This will be a mass inoculation of the entire population of Palm Beach County, and is aimed to annihilate paralytic polio in the county. This is quite possible if a very high percentage of the population is inoculated.

The program is being co-sponsored by the Palm Beach County Medical Association and the Junior Chamber of Commerce organizations throughout the county. Dr. Roy Brown and George Riddle, president of the Belle Glade Jaycees, are co-chairmen for western Palm Beach County. Drs. Richard Lane and Lester Hatton will be coordinators for the Pahokee area, and serving the Canal Point area will be Harlan Sears.

Dr. Harold Yount, chairman for the County Medical Association, and Bill Brown, general chairman for the Jaycees, conducted a briefing session at the Civic Center in Belle Glade on August 4th. Transportation and education pose as the biggest obstacles in our area. The great need for volunteer workers was also discussed.

A mass meeting has been scheduled for August 28th in the Belle Glade Civic Center. All those interested in serving as volunteer workers are urged to attend this organizational meeting. There will be eleven dosing stations in the Glades. Each of these require approximately thirty workers. This figure includes a doctor, pharmacist, and nurse. These will be on duty at every dosing station.

Those interested in volunteering should contact Dr. Lane, 924-7489, in Pahokee; Harlan Sears, 924-2191, Canal Point; and George Fowner, 998-2050, Jaycee co-ordinator for Belle Glade.

A Twenty-five cent charge will be requested per dose, however, no one will be refused the Sabin Oral Vaccine, George Riddle stated.

The Tri-City baseball team of the Florida Junior Major League, composed of 13 and 14 year old boys from Pahokee, Belle Glade and South Bay, won fourth place in the State meet held at St. Petersburg, last week, to determine the all-state champions. The Jacksonville team won the championship. Panama City was second and St. Petersburg placed third.

'Masterpiece' Depicts Last Supper

—Florida State News Bureau Photo

The Great Masterpiece at Lake Wales, a mosaic of Leonardo da Vinci's Last Supper, is considered one of Florida's finest attractions. The famous painting is reproduced with amazing artistry and contains more than 300,000 colored stones. The Great Masterpiece is another reason Governor Farris Bryant and the Florida Development Commission are urging Floridians to vacation in their own state this summer.

Miracle Strip Is Attracting Visitors

PENSACOLA — The 100-mile "miracle strip" of Northwest Florida is attracting out-of-state tourists in larger numbers this year than ever before.

A survey by the Florida Development Commission showed that of the 10,662,523 tourists who drove by automobile last year, 1,293,305 went to the miracle strip area of the state's panhandle. This area stretches from Pensacola on the west to Panama City on the east.

This section of the state was once largely ignored by tourists heading for the Southern sections of Florida. It is a different story today with the miracle strip section attracting a good percentage of the total number of visitors to the state.

Christian Science Group Of Canal Point

All things are possible to God, divine Mind. This is a theme of the Lesson-Sermon entitled "Mind" to be heard in Christian Science churches Sunday.

Luke's account of the healing of the palsied man by Christ Jesus will be presented in the readings from the Bible. Included is this verse (Luke 5): "And immediately he rose up before them, and took up that whereon he lay, and departed to his own house, glorifying God."

From "Science and Health with Key to the Scriptures" by Mary Baker Eddy this citation will be read: "When man is governed by God, the ever-present Mind who understands all things, man knows that with God all things are possible. The only way to this living Truth, which heals the sick, is found in the Science of divine Mind as taught and demonstrated by Christ Jesus" (p. 180).

Manning Keen Tells Rotes About Berlin

Manning I. Keen was guest speaker at the luncheon meeting of the Pahokee Rotary Club, last Thursday. Introduced by W. D. Howard, he told of his experiences on his recent trip to Europe where he visited ten different countries and spent two days behind the Iron Curtain in Berlin. He entered East Berlin at the infamous "Check Point Charley" where he had to surrender his passport.

He stated that he had to show his passport frequently upon entering other countries but he was always permitted to keep it. Mr. Keen said the people in East Berlin looked sad and dejected and spoke only in low voices or whispers. He was a witness to an incident near the "Wall of Horror and

Shame" when two refugees tried to escape by tunneling under the wall and one of the Soviet guards accidentally shot another Soviet guard fatally in an attempt to kill the escapees.

Mr. Keen further stated that it is now easy to understand why Paris was declared an "open city" during World War II, after viewing the destruction in Germany that is still evident after 18 years.

Guests were Donald E. Armstrong and W. T. Paget of Stuart; and N. T. Taylor and J. P. Halbrook of Belle Glade.

R. O. Lampi, immediate past president, presided in the absence of the president, Dr. E. C. Johnson.
